"The Blank Recipe Book" has a beautiful cover and back. I could just about frame it. On top of that, using it's blank recipe book aspect allows me to make my own cookbook, like the subtitle says. The pages are designed well to have sections for the needed information, even some of it you might forget without this book. I also like the section in the back that has the kitchen measurement chart because I'm always forgetting how many ounces are in a pound and all that. I'm going to order a few more of these so that my mother and mother-in-law can write down family recipes. And then I'll do one to pass to my children as well. That's another thing that makes this a really good book/product - the heirloom aspect of it. I'm glad I got it.

I ordered this for my mother-in-law because she's a great cook, and has tons of family recipes

stored in her head. The cover is beautifully designed. My mother-in-law loved this book because she was able to take her family recipes and create a wonderful cookbook that she could share with me. It's a great idea, and I'm glad I made the purchase. Now I'm able to bond with her over cooking.

I recently received my Blanke Recipe Book.I am very pleased with the layout of the pages and the space provided for the ingredients and directions.I can't wait to get started on organizing my recipes.I also think this book will make a great gift for birthdays and Mothers Day. I know I will be purchasing additional copies.

Really well thought out and helps me record my recipes and those from my grandmother. Great tool! I plan on putting recipes in another one and giving it as a gift to my brother.
