An Encyclopedia Of The Modern Era, 1940 To Present (Fishing Lure Collectibles)

Synopsis

Collectors have been waiting for the newest book from Dudley and Deanie Murphy. In this volume of more than 3,500 lures shown in full color, the authors address the most collectible fishing lures made since 1940. In addition to the major 'Big Six' companies and miscellaneous lure makers, this volume, for the first time, provides insight into spinning lures, folk art lures, and the rapidly growing area of contemporary collectibles. Considered by collectors to be the most useful reference available on post 1940 vintage antique fishing lures, this volume takes a fresh approach to explaining the hobby. The reader will quickly discover the combination of significant historical information, realistic values, and crisp photography in a concise presentation to be a real asset in lure identification and values. This book is sure to be the most complete and convenient single volume on fishing lures available today. 2006 values.

Customer Reviews

This work, as the title notes, includes lures from 1940 to a relative recent period. Do remember that lures change almost of a monthly basis with new products being introduced constantly. Also remember that NO WORK can possibly list them all. I recently added this volume to my collection and have been delighted. First, I must confess that I do not use they type of lures that are featured in this wonderful book. I gave up this type of fishing years and years ago and only trout fish using flies now. Never-the-less, fishing gear, any fishing gear, absolutely fascinates me and I love looking at

the stuff. But that is not the primary reason I own this and quite a number of other books of its ilk. I have for years bought and sold these things; in part to make money, but more so because it is a nice hobby and I get to meet many nice people. When you buy and sell such things, I have found it is best to know a bit about them. This work goes along way in assisting me in this need for knowledge. There is a lot of money to be made in this hobby, but conversely, there is a lot of money to be lost if you know not what you are doing. Secondly, I paint and draw. One of my primary subjects for still-life paintings and drawings is fishing lures. Now always having the actual lure in front of me is a bit of a handicap, and to be frank quite impossible because some of these fishing lures are quite rare and I have absolutely no access to them, but lacking the best thing, i.e. the actual lure, the photographs in this work are by far the second best thing to use. The color is extremely accurate as is the quality of the photographs; sharp, clear and detailed. I have found that the measurements provided by the authors to be extremely accurate.
