## Customer Reviews

I really liked this book. I wasn't sure about it, and was happy when I saw it at the library, so I put it

on reserve. I wasn't sure if this was a book I would refer to again. But...I want this for my shelves now because I don't want to give it back!! I have seen somewhere, someone mention that there were not 365 prompts, but I think that was taking using a narrow sense of "prompt", and the authors don't actually say there is 365 prompts but ideas, and because I have too much time on my hands clearly (!) I went through and roughly counted and there is that many ideas. But more than that, I think that there is more than enough here to occupy one for a year if they really want to dive into the book. There are so many directions presented, it is like one of those pick-a-path books (do they still have those??). There was a lot I liked. The book is split into 12 sections covering aspects of your life in a broader sense, from your personal mythologies, to dealing with the unexpected, seeking solitude and then connection, dealing with fears and mistakes, dreams and awareness. I really liked the way it was set out. For each chapter there are four writing prompts and then different drawing and painting techniques and ideas for taking it further. There are also sections on observations and ideas for taking your journal out and about and extending your comfort zone. I know that some of the techniques and ideas were a little basic, for instance one of the ideas was to use gel medium as an adhesive, but I think that makes it good for the absolute beginner. However, it is not the techniques that blew me away, although there were some things that I thought were incredibly clever and I am going to try.
