## Customer Reviews

The book I purchased fell apart in less than a week. The information inside was not all that helpful anyway. I was hoping for a more generic type of price listing. One that would give good examples with pictures on lots of marbles. The book seemed to focused on high end pieces, not the kind you might find everyday, or perhaps played with as a child.

I got this book to use to identify some of the marbles I found in a storage bldg. I have been really pleased with it.
