# The Internet For Everyone: A Guide For Users And Providers (Jay Ranade Workstation)

## Synopsis

Explains what Internet is, how to get connected, how to communicate with others and how to navigate and mine it for information. This guide is a comprehensive introduction and overview, which covers all the basic concepts of Internet and its technologies. It describes how to find people on the network, communicate with others and connect to Internet resources, including a catalogue of Internet resources organized by subject and showing the access method and Internet address of each resource. This guide also includes step-by-step directions on choosing the right medium, organizing data and ensuring privacy and security; all the information necessary to set up Gopher protocol for service providers; details on how a LAN relates to Internet; technical information on how data moves over the Internet, including the underlying protocols and details on how to connect your workstation to Internet based on mode of access.

Publisher: Computing McGraw-Hill; 1 edition (November 1994)

Language: English

ISBN-10: 0070670196

ISBN-13: 978-0070670198

Product Dimensions: 1.2 x 7.5 x 9.5 inches

Shipping Weight: 2.6 pounds

Average Customer Review: 5.0 out of 5 starsÂ Â See all reviewsÂ (1 customer review)

Best Sellers Rank: #2,496,325 in Books (See Top 100 in Books) #29 inÂ Books > Computers & Technology > Networking & Cloud Computing > Networks, Protocols & APIs > WAN #2681 inÂ Books > Textbooks > Computer Science > Networking #7506 inÂ Books > Computers & Technology > Networking & Cloud Computing > Internet, Groupware, & Telecommunications

## Customer Reviews

As it happens I wrote this book back in 1994. Every now and then I'll find a copy for sale on for \$1 or \$2, so I'll grab a copy to give to friends. Obviously a lot has changed since 1994, but, even if I say so myself, the book covers a lot of aspects that we see in today's Internet; I think it is a useful history of the Internet. So if you are a buff for yesterday's tomorrow, grab a copy. (Don't worry; I'm not making money off it!)
