Quite a few recipes that are ALMOST hands off cooking. As a dad who runs to Taekwondo a few

times a week, works -12 hours daily, and speaks at events I can say dinner is almost a fear. Sure you can microwave things, but you're adding radiation to your meals - an unwelcomed ingredient. This book was full of amazing tasting recipes, especially the steak and cheese, and it takes no time at all to throw them into the crock pot (slow cooker, whatever you want to call it). If you're anywhere close to as busy as I am you will love this book.

only ok...most are crock pot recipes. If I wanted to have crockpot recipes I would have bought a crock pot recipe book. This is a small paperback booklet like those at the register in grocery stores. Not at all what I was looking for.

Although many of these dinners look delicious, my idea of a dump dinner is everything into one pan or pot, not a lot of prep-cooking. Some of the recipes have quite a lot of that and are therefore more time consuming than you may want. On a more positive note, there are some new ideas that sound wonderful and I'm sure the family will love. Enjoy!

For a beginner like me, it's very amazing to learn about all these delicious recipes and know that it would be so easy and fun to make. I always wanted to try but looking at the long list of instructions makes me want to back out and just eat somewhere. This book helped me try again and I loved the result!

Quick and Easy is not always best. Format was a bit confusing. Also there were spelling errors as well as errors in measurements. I had to go back in the recipe to gather information as she has a tendency to write "verbally" and then insert information that should have been given earlier. Format and order is missing in this cookbook.

I absolutely love this book! I'm a very picky eater and there are so many things in here I'd eat! And every recipe is so easy, just make and freeze and cook on demand...my favorite! I've bookmarked a bunch of these to prep this weekend, I'm especially excited to try the lemon chicken recipe! Well worth the read and purchase!

Mouth watering recipes that won't break the bank is exactly what I was looking for, and this book got it right. Crock pot cooking is just easier and less of a hassle, so it was a breeze making the recipes in this book. I especially like the macho nacho chicken with its picante sauce and guacamole. So

good! This is a great little cookbook to get you full on a dime. I highly recommend!

I have not cooked any receipts from this book at this time. However, I have looked through this book and found that for the most part these are easy receipts. I do plan to use some of these receipts in the near future. They look so yummy.
