## **Customer Reviews**

Finally a free book that looks and reads like the author cared about what they were doing and giving. There are a lot of books that are just carp. Thank you Vicki Becker for caring enough about crochet to give us a book worth downloading and patterns worth doing. The book looks professionally put together. I gave four stars only because I haven't yet done one of the patterns. I will come back and change to five stars once I know I can follow the pattern, but I read through a few and don't think I will have any problem making some of your beautiful afghans. I will also look for more of your books. Free ebooks like this let us know that you do good work and care about what you put out there and make us more likely to purchase other books you put together. Thanks

again!

I'm trying to broaden my crocheting base by actually doing projects that I have avoided in the past. I hate changing colors so all my past projects have had one color scheme with variegated yarn providing, well, variety. I've read up on tricks and techniques to make these kinds of afghans, so I'm ready to put that knowledge to the test!

I can hardly wait to start on some of these beautiful patterns! Nine grandkids will keep me busy! Thank you!

Ok, but not as varied patterns as I had hoped for
