## Customer Reviews

I'm planning to get an Apple Watch, but I just needed to make sure I know everything about it. After reading this, I decided to get one with 38mm case. I can't wait to use it to use for jogging and for social media. A book worth reading

Read and follow the instructions of the book, this book is very easy to understand for beginners to use Apple Watch. My friends have Apple Watch, I think I need to introduce this ebook for my friend, my friend would need it. very interesting and meaningful. it gives me a lot of useful knowledge. I now understand many things, it is my favorite book. thank you

When my Apple Watch arrived, few instructions were available. It required intuition to discover all the capabilities. Now I can hardly believe I ever used analog time keeper. Activity up. Senior moments less. Got the all black sports watch and purchased a great leather band and watch charging station. Only regret is I didn't get it earlier.

This was the first book for me to help with my Apple Watch. So far it has been a lot of help!
